La nostra storia

Our story

Ogni armatore sa bene che scegliere la barca su cui navigare è anche una questione di fiducia. Le nostre barche sono progettate e costruite da persone ed è proprio sulla loro esperienza e sulle loro competenze che questa fiducia va riposta. **Italia Yachts** è un'eccellenza italiana che può vantare un team di professionisti qualificati ed esperti, in cui ciascun componente è prima di tutto un professionista dello yachting, un velista, un marinaio, con alle spalle migliaia di miglia percorse in tutti i mari e i campi di regata di tutto il mondo, sempre ai massimi livelli, dalla vela d'altura alla America's Cup.

A tutto questo oggi **Italia Yachts** ha affiancato un'approfondita conoscenza ed esperienza nel settore industriale e tecnologico, maturata in decenni presso primari cantieri internazionali, nell'ingegneria e nell'industria meccanica. Tutto questo oggi è al servizio dei nostri armatori che possono riscontrare in un Italia Yachts un prodotto unico e inconfondibile.

Ogni progetto parte dalla ricerca del perfetto equilibrio e del corretto bilanciamento, con l'obiettivo di ottenere imbarcazioni di facile conduzione e dal comportamento sicuro. Le linee d'acqua sono studiate per ottenere performance a vela esaltanti in ogni condizione meteorologica. Every design project starts from the research of the perfect balance and the correct alignment, aiming to build safe yachts easy to sail even with a small crew or privately. The waterlines are designed to achieve exciting sailing performances in all weathers and specifically to be perfectly functional first on the water and then at the dock. These unique features have turned our yachts into a benchmark in the sailing world: on an **Italia Yacht**, the crew feels safe and protected in all weathers while enjoying unforgettable performances.

La filosofia del Cantiere

The Yard's philosophy

Alla fine del 2022 **Italia Yachts** porta a termine un importante step del proprio piano quinquennale, con l'apertura del cantiere destinato alla produzione. Qui il controllo è totale, dall'inizio alla fine dei processi. Il 2023 inizia con il lancio dell'**IY 43 veloce**: la prima della serie delle barche a motore con le stesse caratteristiche peculiari della vela.
